Finding the Courses in the Course Catalogue

The course catalogue is available online via WueStudy. Usually the courses are made public in the midterm of the following semester (e. g. at the beginning of June for the following winter term and in January for the summer term). Please visit <https://wuestudy.zv.uni-wuerzburg.de/> to retrieve the courses. You do not need to log in the system to find information on the courses. For the enrollment, you need a university account, which you receive after coming to Würzburg. A video tutorial is available via <https://youtu.be/WKtkGOV-6KQ>.

Step 1

First, enter the course catalogue and maybe switch to English language.

The screenshot shows the WueStudy homepage. The top navigation bar includes 'Admission', 'Courses' (highlighted with a green box), 'Help / FAQ', and 'Organisation'. A dropdown menu for 'Courses' is open, showing options: 'Search for courses', 'Show today's courses', 'Show class schedule', and 'Show examination regulations elements'. Below the navigation bar, there are quicklinks for 'Search for courses' and 'Show university course catalog'. The user is logged in as 's350713'.

Step 2

Please choose the correct semester in the course catalogue. You can choose between winter term (beginning in October) and summer term (beginning in April).

The screenshot shows the 'Show class schedule' page. The breadcrumb trail is 'Home > Courses > Show class schedule'. The page title is 'Class schedule for Winter 2019/20'. A dropdown menu for 'semester' is open, showing 'Winter 2019/20' selected. Below the dropdown, there is a table titled 'Class schedule structure' with the following content:

Class schedule structure	Actions
<ul style="list-style-type: none"> Vorlesungsverzeichnis der Universität Würzburg im Wintersemester 2019/20 Die Vorlesungszeit dauert vom 14.10.2019 bis zum 07.02.2020. + Einführungsveranstaltungen zum Studienbeginn + Grundständige Studiengänge (Bachelor, ...) + Lehramtsstudiengänge + Master- und Aufbaustudiengänge + Weitere Angebote der Fakultäten und Graduiertenschulen + Veranstaltungen für Hörer/-innen aller Fakultäten 	

Step 3

Now you have to choose between Bachelor (“Grundständige Studiengänge (Bachelor, ...)”) or Master degree (“Master- und Aufbaustudiengänge”). After clicking on the degree, you first get a list of courses of different studies, choose “Psychologie” and next “Bachelor (180 ECTS) Psychologie – 2015” or, if you chose “Master- und Aufbaustudiengänge”, “Master (120 ECTS) Psychologie – 2015”.

The screenshot shows the WUESTUDY interface. At the top, there is a navigation bar with 'Admission', 'Courses', 'Help / FAQ', and 'Organisation'. Below this, the 'Class schedule for Winter 2019/20' is displayed. A dropdown menu shows 'semester: Winter 2019/20'. The main content area is titled 'Class schedule structure' and lists several categories. The 'Master- und Aufbaustudiengänge' category is highlighted in yellow. Other categories include 'Einführungsveranstaltungen zum Studienbeginn', 'Grundständige Studiengänge (Bachelor, ...)', 'Lehramtsstudiengänge', 'Weitere Angebote der Fakultäten und Graduiertenschulen', and 'Veranstaltungen für Hörer/-innen aller Fakultäten'.

Now you first see the main categories of the courses (“Compulsory courses”, “Compulsory electives”, ...). By clicking through the categories you will find the courses, f. e. the course “Motivation and Emotion” → seminar “Aggression and Violence”.

The screenshot shows a detailed view of the 'Psychologie' course list. The 'Bachelor (180 ECTS) Psychologie - 2015' category is expanded to show 'Compulsory Courses'. Under 'Compulsory Courses', the 'Basics' category is expanded to show several courses. The 'Motivation and Emotion' category is expanded to show a list of courses. The course '05022140 - Aggression and Violence - Seminar' is highlighted in yellow. Below it, a sub-entry 'Aggression and Violence - 1. parallelgroup' is visible. Other courses listed include 'Cognitive Psychology 1', 'Cognitive Psychology 2', 'Biological Psychology 1', 'Biological Psychology 2', 'Differential and Personality Psychology', and 'Developmental Psychology 1'.

By clicking on the course, you will get further information, f. e. if the course is held in English or at what time the parallel groups are taking place:

Step 4

Click on the modules you are interested in and you either get the submodules or the concrete courses. Navigate through the courses in order to plan your stay. Most courses are held each semester, but the times and persons may vary. Please do not forget to come to Würzburg in time in order to be able to register for the courses you want.
